[†]Method Detection Limit (MDL):

Results

Analysis	Method	[†] MDL / LOQ	Specification	Results	UOM	Lab ID
----------	--------	------------------------	---------------	---------	-----	--------

In microbiological testing, this is the minimum level of growth that can be detected with confidence. If a result is reported as "None Detected", it means any visible growth was below this limit.

[†]**Limit of Quantitation (LOQ):**

In analytical chemistry testing, this is the minimum level of the desired analyte that can be quantified with confidence. If a result is reported as less than LOQ, it means any detected amount was too small to report an exact number.
